CALL FOR CONTRIBUTIONS FOR THE 2026 RILEM SPRING CONVENTION

The 2026 RILEM Spring Convention & Conference on Innovative Construction Materials and Processes for Sustainable Buildings and Infrastructure will take place in Ghent, Belgium, on 13-17 April 2026. The organisers are happy to announce the opening of the call for contributions, that will close on 15 June! Hurry up! More info here bit.ly/3SxQgO9.

INDIAN CONCRETE INSTITUTE

RILEM is excited to welcome on board a new partner: the *Indian Concrete Institute* (ICI). The non-profit organisation *Indian Concrete Institute* is one of the leading professional bodies in India, catering to the professional needs of individuals and organisations involved in concrete. More info here bit.ly/3FbdoPm!

PRE-CONFERENCE DOCTORAL COURSES

The registration to the pre-conference doctoral courses at the 79th RILEM Annual Week, on 22-23 August 2025, in Hanoi, Vietnam, is now open! Find out here bit.ly/43s17zs the details of 4 amazing courses on Cement Hydration, Earthen Construction, Asphalt Recycling, and Durability of Concrete! The courses are open to everyone, not only to the conference delegates!

MATERIALS AND STRUCTURES

RILEM is happy to offer an interview with Prof. Giovanni Plizzari, University of Brescia, Italy, current Editor-in-Chief of *Materials and Structures*. This interview is an opportunity to reflect upon the flagship journal of RILEM and discover the many good reasons to submit your scientific contribution to this journal. The full interview is available here: bit.ly/3F6wHcl.
