

## RILEM UPDATE

The International Union of Laboratories and Experts in Construction Materials, Systems and Structures

### ICBBM 2025 PROCEEDINGS

The proceedings of the 6<sup>th</sup> International Conference on Bio-Based Building Materials - ICBBM 2025 are now published! Are you a RILEM member? Download for FREE the entire book, or any chapter, from your RILEM website account! Not a RILEM member yet? Join now [bit.ly/40cndny](https://bit.ly/40cndny) or buy the proceedings here: [bit.ly/4nfQ5ol](https://bit.ly/4nfQ5ol).

### EPON

The RILEM Educational Portal Online (EPON) [bit.ly/4kR1Y2T](https://bit.ly/4kR1Y2T), a web portal for free educational resources on RILEM-relevant topics, has been updated with new entries, like the European Concrete Society Network (ECSN) webinar series, the podcast of the Structural Engineering Channel, and more...enjoy!

### CLUSTER F EVENTS

Cluster F collects the RILEM Technical Committees (TCs) working on "Bituminous Materials and Polymers".

Two RILEM events, organised by the members of Cluster F TCs, are scheduled in the following months:

- The RILEM Cluster F Annual Meeting 2025, in Limoges, France, on 30 September-3 October 2025 [bit.ly/4k7gt1o](https://bit.ly/4k7gt1o).
- The 2<sup>nd</sup> RILEM International Symposium on Bituminous Materials (ISBM 2026) in Padua, Italy, on 16-18 June 2026 [bit.ly/3G8pSb9](https://bit.ly/3G8pSb9).

### OPENING AND CLOSING TC PAPERS IN RTL

The RILEM Diamond Open Access journal RILEM Technical Letters (RTL) publishes short letters when a RILEM TC is established, or it terminates its activities. Recently, the following letters have been released:

- Opening Letter of RILEM TC UMW: Upcycling Powder Mineral Wastes into Cement Matrices — Challenges and Opportunities [bit.ly/44dw8X7](https://bit.ly/44dw8X7).
- Closing Letter of the RILEM TC 281-CCC: Carbonation of concrete with supplementary cementitious materials, [bit.ly/3T58zdT](https://bit.ly/3T58zdT).
