

RILEM UPDATE

The International Union of Laboratories and Experts in Construction Materials, Systems and Structures

2024 RILEM MEDALS: CALL FOR NOMINATIONS

Robert L'Hermite Medal: Since 1975, RILEM evaluates proposed candidates for the prestigious Robert L'Hermite Medal. The medal is awarded to a young researcher of less than 40 years, who has made an exceptional contribution to science.

Gustavo Colonnetti Medals: In 2016 RILEM introduced a new award, the Gustavo Colonnetti Medal. Up to two medals are awarded per year to researchers of less than 35 years, who have made an outstanding scientific contribution to the field of

construction materials and structures.

Call for nomination is OPEN until 30 November 2023! To submit your application, visit this page:

<https://www.rilem.net/honors>.

New Technical Committees

NEW RILEM TECHNICAL COMMITTEES

RILEM has the pleasure to inform that 3 new Technical Committees were approved by the RILEM Technical Activities Committee during the last RILEM Annual Week, on the topics of bamboo and paving materials (performance and sustainability). Visit this page: <https://www.rilem.net/news/life-of-tcs-619> to find more details. If you wish to participate in these Technical Committees, please fill in the Join a TC form: <https://www.rilem.net/joinatc>.

78TH RILEM ANNUAL WEEK AWARDS

The organisers of the 78th RILEM Annual Week, taking place next year in September in Toulouse, France, are thrilled to announce two opportunities for its young delegates: 1) the Young Researcher Competition, for the best paper and best poster; and 2) the RILEM PhD travel grant. Deadlines, eligibility criteria and more details are available here: bit.ly/3LXGCS9
