

RILEM UPDATE

The International Union of Laboratories and Experts in Construction Materials, Systems and Structures

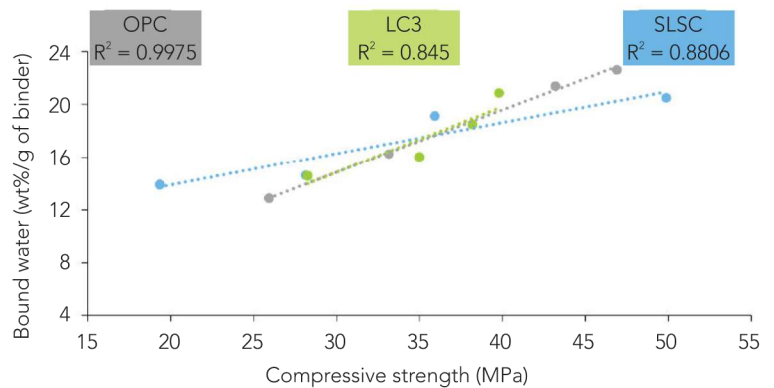

Interview with Dr Radhakrishna Pillai, IIT Madras

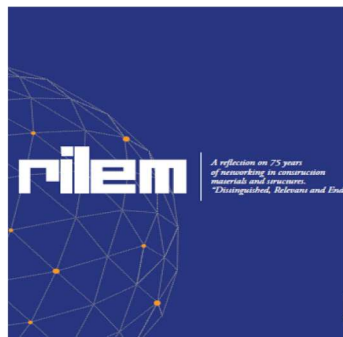

An interview with Dr Radhakrishna Pillai, Indian Institute of Technology Madras, Chennai, India, is now available on our YouTube channel. In this interview, Dr Pillai discusses his role as RILEM Regional Convener for South Asia and the impact of RILEM in the construction sector in this part of the world. Please follow this link bit.ly/3xE4uQV to watch the video.

Indian research on SCM

A paper fully authored by researchers from the Indian Institute of Technology Delhi has been recently published in the OPEN ACCESS journal *RILEM Technical Letters* (RTL). The paper, titled "Hydration behaviour of limestone-calcined clay and limestone-slag blends in ternary cement", discusses the hydration of Supplementary Cementitious Materials (SCM), a hot topic in the cement industry that is committed to reduce its carbon footprint. The paper can be downloaded FOR FREE here: bit.ly/3Ax06op.

75th History Booklet and 2020-2021 Technical Report

Two new publications are available on our website www.rilem.net:

- The 75th Anniversary RILEM History Booklet: this booklet presents the major changes in RILEM in last 2 decades. It also gives some members' personal reflections and anecdotes, and some reflections on the essential 'ethos' and 'character' of RILEM.
- The 2020-2021 RILEM Technical Report: a comprehensive report containing the main features of all active RILEM Technical Committees and some highlights of RILEM matters and events of the last 12 months.
